

**Last date for registration 12 November 2024**

## INTRODUCTION

Manufacturing industry is at its most exciting times with digital revolution. Industry has come a long way from 1st revolution of mechanization, 2nd revolution of Electrification, 3rd Revolution of Automation and Digitalization as the 4th Industrial revolution.

Many problems of the manufacturing industry which were not being solved very easily are being solved with the help of digital concepts. An important pre-requisite to achieve best results of digitalization is fairly good maturity levels of automation. When the degree of automation is better in the manufacturing process, better results can be achieved out of digitalization. Hence industrial automation and subsequently digitalization is gaining importance across industry sectors in the current situation. From simple Poke Yoke to fool proofing to complex Industry 4.0 system which is capable to self-decide and self-configure is possible by Digital Revolution.

This has increased the need of skilled man power, knowledge base, collective intelligence in the areas of industrial automation and digitalization. Keeping this in view, Indian Machine Tool Manufacturers' Association (IMTMA) is organizing a 2-day interactive programme on "**Introduction to Digital Factory**"

## FOCUS AREAS

- What is digitalization?
- What is an ideal Industry 4.0?
- Macro level Idea of a Digital Factory.
- Basics of PLC, HMI, Sensors and other elements.
- PLC features and Architecture
- PLC Programming and Hands-on Simulation
- HMI Basics & Features in the context of Industry 4.0
- HMI Screen development
- Integrating PLC with HMI
- Overview of extensively used communication protocols MODBUS, OPCUA & MQTT
- Edge computing Vs Cloud computing.
- Machine Monitoring System example.
- Factory visit to witness few examples.

## KEY TAKE AWAYS

**After undergoing the program, the participants will be able to have an overview of:**

- The possibilities of Digitalization in Manufacturing.
- Feel of an ideal Industry 4.0 situation.
- Basics of PLC technology and understand the concept of Ladder programming.
- Basics of HMI and creating screens in the context of Industry 4.0
- Integrating the HMI and PLC.
- Communication protocols like MODBUS, OPCUA and MQTT.
- Knowledge of Edge computing and Cloud computing.
- Opportunity to visit factory to witness the examples.

## PARTICIPATION FEE

**Rs. 10450/-**  
+18% GST

**IMTMA Members/ Micro Companies/ Individuals/  
Educational Institutions / Students/ IMTMA Non  
Members/ Others**

**USD 415/-**  
**Overseas Participants**

**Group Concession : 10% for 3 to 5 and 20% for 6 and more delegates being nominated from the same company**

## PARTICIPANT PROFILE

Programme will be beneficial for Automation Engineers, Maintenance Engineers, Engineers in Design, R&D and NPD activities, Digital officers.

Programme is relevant to industry viz., Any Process Industry, Auto OEMs, Auto ancillaries, Pump Manufacturers, Aerospace ancillaries, Defence & Railway Establishment, General Engineering and Engineering Service providers.

Faculties from educational institutes can also participate in the programme. Students who are interested in Industrial Automation can participate to get a hands-on feel.

## FACULTY

This Program will be conducted by **Dr. Prathima Holla**.

**Dr. Prathima Holla**, Dr. Prathima Holla is a rare blend of Industry and academics. Graduate in Electronics and Communication Engineering from NMAMIT Nitte. Masters in Industrial Electronics from SJCE Mysore. She is MTech Gold Medallist from VTU. She worked in Industry majors like L& T Emsys, Intel, Microview Software Technologies for more than 14 years. She also spent about 8 years in academic institutions, teaching Electronics and Electrical subjects. She completed her Doctorate from VTU in 2021 with her research subjects around Industry 4.0. She has architected an Internet gateway to monitor machine shop activities which involves M2M communication, Data Analytics, Close looping of many manufacturing challenges using digital capabilities. Her research papers are published in international journals like Taylor and Francis, Springer etc. Passionate about teaching, skilling and knowledge transfer. At present she is heading automation division in Distinct Productivity Solutions Pvt. Ltd., Bangalore.

### For Registration Contact

**Digvijay Nath Pandey**  
**Programme Coordinator**  
7349067391

**Back End Operations**  
9742626488  
[enquiry@imtmablr.com](mailto:enquiry@imtmablr.com)

### Contact Address

**INDIAN MACHINE TOOL MANUFACTURERS' ASSOCIATION**  
@ BIEC, 10th Mile, Tumkur Road, Madavara Post,  
Bangalore - 562 123  
Tel : 080-66246600  
Fax : 080-6624-6658

**REGISTRATION** : Prior registration for participation is necessary. Number of participants is limited and will be accepted on 'First Come First Serve' basis. A Certificate of participation will be issued to participants.

**Important Information** : Participation fee includes, course material, working lunch and tea / coffee. Interested companies are requested to register online by clicking on 'REGISTER' button and by filling up the nomination authority and participant's details in specified form.
